Media Release

1 March 2019

First Western Australia Director appointed to Lighting Council Australia Board

Lighting Council Australia CEO Richard Mulcahy has welcomed the appointment of its first Western Australian based Director, Malcolm Lee of Dialight Asia Pacific.

Mr Lee co-founded Industrial Lighting Solutions in 2006 and is the current Managing Director and joint venture partner of Dialight Asia Pacific, a world leader in Industrial and Hazardous Area LED lighting.

Dialight Asia Pacific forms part of the wider Dialight group which is listed on the London stock exchange, with financial headquarters in London, operational headquarters in New Jersey USA, and regional offices in Perth Australia, Singapore, Copenhagen Denmark, Houston Texas, Dubai UAE and Sao Paulo Brazil.

Their lighting products are renowned for their durability in harsh conditions and cost-effectiveness through high-efficiency and low-maintenance designs. Dialight predominantly services the Mining, Mineral Processing, Petrochemical and Oil & gas sectors, exposing the luminaires to some of the most extreme conditions.

The company's focus on sustainability will contribute to Lighting Council Australia's ongoing administration of the two industry-led product stewardship programs, Exitcycle and Fluorocycle.

Mr Lee will complement Lighting Council Australia's already diverse Board, with a focus on industrial lighting from an international perspective. He is already a very active member, providing market intelligence and volunteering his time to advocate on behalf of the industry.

Lighting Council Australia is the peak industry body representing Australia's 100 lighting companies.
